Disciplefy — How-To Tutorial Reels (App Walkthroughs)

A user-onboarding / education series: **15 tutorial reels** that teach people how to navigate the app and use every feature. Separate from the marketing (problem→solution) set. Each is a **30–60s screen-recording walkthrough** with on-screen step badges.

Host

- **DANIEL** — friendly guide. Can appear on camera in the intro/outro, or be **voiceover (VO)** over the screen recording. Screen recording is always the star.
- *(Optional)* **SARAH** as the "new user" learning alongside the viewer, for warmth.

Format key

- *[...]* = screen recording / camera direction
- *(Step 1)* = on-screen step badge
- *(...)* = on-screen text caption
- **DANIEL:** = spoken line (on camera or VO)
- **0:00–0:05** = timecode
- **End card** = identical closing frame ("Disciplefy — try it free. Link in bio.")

Tutorial structure (how each fills 30–60s)

1. **Promise** (0–5s) — "Here's how to [do X] in Disciplefy."
2. **Steps** (5–45s) — 3–5 numbered steps, each a real screen action + short VO.
3. **Pro tip** (45–53s) — one power-user tip.
4. **End card** (53–60s) — CTA + what to watch next.

Navigation note: Steps follow the app's current structure — bottom tabs **Home · Study (🌟) · Topics · Community · Saved**. Confirm exact button labels against the live build before final captioning; UI labels may evolve.
